

■ PSA / FOR THE DOGINAL DOGS + DOGE PACK

DOING ONLY GOOD, EVERY DAY.

DOGE = DO ONLY GOOD EVERYDAY.

We're building the proof.

The Forte is a **75,000 sq ft indoor action-sports home opening 2028** in Bristol, Connecticut — growing to a **~150,000 sq ft destination** — built to catch the kids the world forgets, and put them on a real path to the world stage. Built for the pack. Built for my brother.

PERKS FOR HOLDERS

A CALL FOR BUILDERS

A MISSION TO BACK

■ IN LOVING MEMORY OF ZACK FORTE ♥

■ WHY THIS EXISTS

THIS ONE'S FOR ZACK.

Zack Forte was my brother — not by blood, by choice, which is stronger. Twenty-four years, inseparable: two black sheep who found each other in a skatepark. In 2020 he was taken from us, and it shattered me. The Forte carries his name because everything good in me was forged standing next to him.

I know what it is to fall through the cracks. I lost my father at sixteen and my mother at eighteen, and I've come through homelessness, addiction, a traumatic brain injury, and a war. By every measure, I was a kid who wasn't supposed to make it.

Skateboarding is the reason I did. It gave me somewhere to belong when nothing fit, a thing to be good at, a family in the parking lot. At thirteen I had real talent — sponsors, contest wins, an invite to the X Games trials — and no one built to get me there. No supportive park. No "you got this." No home. That door closed quietly, the way most kids' doors do.

The Forte is the home I never had — a place that catches the kids the world forgets and puts them on a real path before the cracks can take them. **Do Only Good, Every Day** isn't a slogan to me. It's a promise to the next kid: **you will not fall through.** I won't let it. I refuse to.

"There's always new tricks to learn and new heights to reach."

I said that at thirteen, at the X Games trials. I still believe it — only now there are more hearts to reach, and more souls to save.

■ THE BUILD

A HOME FOR THE NEXT GENERATION.

Olympic-grade ramps, bowls, street and a climbing wall — plus AI & tech classes, a VR studio and computer labs open 24/7. Real coaching, mentorship and a proprietary athlete-AI system, in the most sports-rich corner of America. **We open Phase 1 in 2028 and grow to a ~150,000 sq ft destination.**

01

Youth & Mentorship

After-school programs and a safe place to belong.

02

Scholarships & Access

No kid priced out of their own potential.

03

Olympic & Pro Pipeline

Real coaching, a real path to the world stage.

04

Mind & Body

Mental health, sports science and community wellness.

05

Code, AI & VR Labs

Tech classes, a VR studio and 24/7 labs. Part skatepark, part builder lab — pizza, skateboarding and DeFi under one roof.

THE STRUCTURE

Two engines, one heart

ESI LLC builds and runs the facility. The Forte (501© (3), in formation) runs the mission — kept legally separate, by design.

■ WHAT'S INSIDE

MORE THAN A SKATEPARK.

One building, two engines — a real entertainment destination that funds a real mission. The play floor keeps the lights on; the mission changes lives. **We build it in two phases.**

■ PHASE 1 · THE CORE · 2028

Train, compete & build

- Olympic-grade ramps & bowls
- Street course
- Climbing wall
- Air-awareness training zone
- Coaching & mentorship
- AI & tech classes · VR studio
- Computer labs, open 24/7
- FORTITUDE athlete-AI
- VR gaming center + arcade
- Café & lounge · Pro shop

■ PHASE 2 · THE DESTINATION · ~2032

The revenue floor

- Electric go-karts — indoor + outdoor track
- Paintball / laser tactical arena
- Movie / screening theatre
- Expanded jump zone (demand-driven)
- Events & party rooms
- Expanded food & beverage + bar
- + more to come

Funded as its own expansion once Phase 1 is open & proven. The outdoor track uses land, not costly enclosed sq ft.

The play floor is ESI (for-profit) — it funds The Forte's youth programs, scholarships and pipeline. One engine pays, one engine gives — kept legally separate, by design.

COMMUNITY IMPACT

A LIFELINE — NOT JUST A PARK.

In the Northeast, when winter hits, the skate scene dies — no training ground, no safe place to land, no one in a kid's corner. The Forte changes that: a year-round home where every kid, regardless of what they can pay, has somewhere to belong and someone who believes in them.

HOW IT GIVES BACK

► **After-School & Mentorship**

A safe place from 3–8pm — the hours that matter most — with mentors in a kid's corner.

► **Mind & Body**

Mental-health support, sports science and wellness — the whole kid, not just the trick.

► **Open to All**

A free outdoor plaza and community skate nights — the door is open, not gated.

► **Scholarships & Access**

Sliding-scale and full scholarships so a paycheck never decides who gets a shot.

► **Code, AI & VR Labs**

Real future skills: tech classes, a VR studio and labs open to every kid.

► **A Real Path**

Coaching and an Olympic & pro pipeline that takes a local kid to the world stage.

This is what the pack builds — not a name on a wall, but a kid who makes it. The play floor keeps the lights on; **The Forte (501©(3), in formation)** turns it into lives changed. **Do Only Good, Every Day.**

WHY I'M BRINGING THIS TO YOU

BECAUSE YOU ALREADY DO ONLY GOOD EVERY DAY.

I didn't pick this community at random. The Doginal Dogs pack has already raised millions for good causes, earned a Web3 philanthropy award, and shown up — live, together — for more than a thousand straight days. You built the **#1 NFT collection on Dogecoin** from a free mint, with no VC and no shortcuts. Just the pack.

That's the same DNA as The Forte. We're taking DOGE energy — **Do Only Good Everyday** — and pouring it into something you can walk into, skate in, and put your kids in. A real building. Real kids. Real proof this community shows up in the physical world, not just on-chain.

I'm a skater. I'm an Army vet. I'm one of you — and I'm asking the pack to help me build it.

■ THE OPPORTUNITY / ESI LLC

THE NUMBERS BEHIND THE MISSION.

The mission runs on a real business. ESI LLC is the for-profit engine built to fund The Forte for decades. We stress-tested it with a 10,000-run Monte Carlo and built it to **survive**, not just to dream.

93.2%

of 10,000 simulated runs stay **solvent every year** and clear lender coverage. Built to last: interest-only debt through the opening ramp, a funded reserve, and Phase 2 financed as its own expansion (~2032). **Why now:** permanent Olympic inclusion for skate, BMX & climbing at LA 2028, a year-round pro league, and the FORTITUDE AI platform.
